

**Your distribution center is in best hands.
This means more time for your core
business.**

We take over the responsibility for your distribution center and make your logistics processes highly competitive and cost-efficient.

WITRON's Logistics Operation is unique in the industry. As a general contractor, we not only design and realize automated distribution centers, but also operate as a **service provider providing our own personnel** for the **operation of your automated system**.

We already support our customers at 40 sites worldwide in their daily distribution center operations.

Holistic integration from supplier to end consumer – adapting flexibly to the constant change in your business.

We make logistics easy.

General contractor and operator of storage and picking systems for retail and industry.
